At Airborne, we feel strongly about giving back to the community that supports us. We want to invest our time and energy in the events that will bring the most participants and therefore raise the most money. We expect the individual requesting the fundraiser event to drive participation. If you are requesting a fundraising event, how many people do you believe you can bring to the event? _____

How will you promote your event and maximize the return on Airborne's donation/investment?

Please describe how your request aligns with Airborne's priorities to promote a healthy lifestyle through a focus on fitness and fun, support children in need and their families, and showcase the unique benefits of Airborne to as many people as we can.

Participation is limited. Please allow up to 5 business days for a response. All programs are subject to change at any time.
